UT PERMIAN BASIN GRADUATE STUDIES

ACCELERATED MASTER'S PATHWAY (AMP) STUDENT INTERNAL APPLICATION

The UTPB Accelerated Masters Pathway (AMP) Program allows academically qualified undergraduate students to complete both a bachelor's degree and a master's degree on an accelerated timeline, completing both degrees sooner than in traditional programs. In some cases, students can take up to twelve (12) graduate credit hours and count them toward both the undergraduate and graduate degree. AMP participants who successfully meet the requirements will automatically be accepted into Graduate Studies and will not be required take the Graduate Record Examination (GRE). Because they are undergraduate students, AMP participants are not eligible for financial aid for coursework taken at the graduate level. Prior to enrolling in an AMP, participants are required to meet with the office of Student Financial Aid to ensure they are aware of the financial responsibilities.
