The switch from Campus Connect to myUTPB

This coming fall will be the first semester in which UTPB will be using my.utpb.edu instead of campus connect. Access to the site can be gained by clicking on the link that was provided above. This portal will now allow students to have electronic access to all important student information. The information that a student will be given access to includes the individual's transcripts, schedule, demographic information, and payments. If help is needed logging into or finding the site, please click here.
