

MBA with Public Health Certificate

Two UT institutions partner to provide a unique opportunity to learn about management and public health. Completers will earn a Masters of Business Administration Degree from UT Permian Basin and a graduate certificate in Public Health from the UT Health Science Center-Houston.

- UT Permian Basin's College of Business is accredited by Association to Advance Collegiate Schools of Business (AACSB) International
- UT Health's School of Public Health is accredited by Council on Education for Public Health (CEPH).

The curriculum requires 46 total hours, 15 courses. A course can be taken on campus or online. The Public Health Certificate courses are available online.
