SECTION 1 – GENERAL INFORMATION AND REQUIREMENTS

- 1.1 **GENERAL INFORMATION:** The University of Texas System (“Owner”) and **The University of Texas Permian Basin** are soliciting Competitive Sealed Proposals (“Proposals”) for selection of a General Contractor for proposed renovations at the Center for Energy and Economic Development (CEED) and at the J. Conrad Dunagan Library (Library) RFP 742-22-196-2 (“Project”), in accordance with the terms, conditions, and requirements set forth in this Request for Competitive Sealed Proposals.
- 1.1.1 This Request for Competitive Sealed Proposals (“RFP”) is the only step for selecting a General Contractor for the Project as provided by Texas Education Code §51.783(d). The RFP provides the information necessary to prepare and submit Competitive Sealed Proposals for consideration and ranking by the Owner.
- 1.1.2 The Owner may select the Proposal that offers the “best value” for the institution based on the published selection criteria and on its ranking evaluation. The Owner may first attempt to negotiate a contract with the selected offeror. The Owner may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the board is unable to reach a contract with the selected offeror, the Owner may formally end negotiations with that offeror and proceed to the next “best value” offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.
- 1.2 **PUBLIC INFORMATION:** All information, documentation, and other materials submitted in response to this solicitation are considered non-confidential and/or non-proprietary and are subject to public disclosure under the Texas Public Information Act (*Texas Government Code*, Chapter 552.001, *et seq.*) after the solicitation is completed.
- 1.2.1 The Owner strictly complies with all statutes, court decisions, and opinions of the Texas Attorney General with respect to disclosure of RFP information.
- 1.3 **TYPE OF CONTRACT:** Any contract resulting from this solicitation will be in the form of the Owner’s Standard General Contractor Agreement, a copy of which is included in the Bidding Documents.

It is the responsibility of all respondents to obtain this information in a timely manner. All such Addenda issued by the Owner before the proposals are due as part of the RFP, and respondents shall acknowledge receipt of each Addendum to the RFP and/or the Bid Documents in its Proposal.

1.4.1 ADDENDUM MAY BE ISSUED BY THE POINT-OF-CONTACT FOR THIS RFP VIA THE PURCHASING DEPARTMENT WEBSITE AT ***HTTP://WWW.PURCHASING.UTPB.EDU*** FOR THE BID DOCUMENTS LISTED IN SECTION 5 BELOW.

1.4.2 No oral explanation in regard to the meaning of the Bidding Documents will be made and no oral instructions will be given before the award of the contract. Discrepancies, omissions or doubts as to the meaning of Drawings and Specifications shall be communicated in writing to the Project Architect for interpretation. Any interpretation made will be in the form of an Addendum, which will be forwarded to all known plan holders and its receipt by the respondent shall be acknowledged on the Pricing and Delivery Proposal Form.

1.4.3 Respondents shall consider only those clarifications and interpretations to the Drawings and Specifications that the Project Architect issues by Addenda five (5) calendar days prior to the submittal deadline. Tuesday, December 21, 2021 1:30 pm CST

- 1.11.1 At the Pre-Bid Conference, the Architect will walk interested bidders through the Library first, and then will drive out to the Midland Campus and walk through the CEED project. A description of the documents will be included as a part of the conference agenda. This may be the only opportunity for potential respondents to view the Project site(s) before the submittal of Proposals. *Attendance at the pre-submittal conference is optional.*
- 1.12 ELIGIBLE RESPONDENTS: Only individual firms or lawfully formed business organizations may apply (This does not preclude a respondent from using consultants.) The Owner will contract only with the individual firm or formal organization that submits a Proposal.
- 1.13 HISTORICALLY UNDERUTILIZED BUSINESSES SUBMITTAL REQUIREMENTS: It is the policy of The University of Texas System and each of its component institutions, to promote and encourage contracting and subcontracting opportunities for Historically Underutilized Businesses (HUB) in all contracts. Accordingly, the Office of Facilities Planning and Construction (OFPC) has adopted Exhibit H, Policy on Utilization of Historically Underutilized Businesses (included in the Bidding Documents). The Policy applies to all contracts with an

12/03/2021

expected value of \$100,000 or more. If OFPC determines that subcontracting opportunities are probable, then a HUB Subcontracting Plan is a required element of the Proposals. Failure to submit a required HUB Subcontracting Plan will result in rejection of the Proposals.

- 1.13.1 STATEMENT OF PROBABILITY: The University of Texas System, Office of Capital Projects (OCP), has determined that subcontracting opportunities are probable in connection with this procurement solicitation. Therefore, a HUB Subcontracting Plan (HSP) is required as a part of the respondent's Proposal. The respondent shall develop and administer a HSP as a part of the respondent's Proposal in accordance with the OCP Policy on Utilization of Historically Underutilized Businesses (HUB), Exhibit H.
- 1.13.2 Refer to Exhibit H, Policy on Utilization, Historically Underutilized Business and the Summary of Requirements for a detailed list of attachments required with the Proposals.
- 1.13.3 The "Statement of Probability" determines the probability for subcontracting opportunities. This determination will clarify which attachments, detailed in Figure 1, will be required to be completed and returned.
- 1.14 CERTAIN PROPOSALS AND CONTRACTS PROHIBITED: Under Section 2155.004, Texas Government Code, a state agency may not accept a proposal or award a contract that includes proposed financial participation by a person who received compensation from the agency to participate in preparing the drawings and specifications or request for proposals on which the proposal or contract is based. All vendors must certify their eligibility by acknowledging the following statement, "Under Section 2155.004, Government Code, the vendor certifies that the individual or business entity named in this bid or contract is not ineligible to receive the specified contract and acknowledges that this contract may be terminated and payment withheld if this certification is inaccurate." If a state agency determines that an individual or business entity holding a state contract was ineligible to have the contract accepted or awarded as described above, the state agency may immediately terminate the contract without further obligation to the vendor. This section does not create a cause of action to contest a proposal or award of a state contract.
- 1.15 SALES AND USE TAXES: Section 151.311, Tax Code, as amended effective October 1, 1993, permits the purchase free of state sales and use taxes of tangible personal property to be incorporated into realty in the performance of a contract for an improvement to realty for certain exempt entities that include The University of Texas System. The section further permits the purchase tax-free of tangible personal property (other than machinery or equipment and its accessories and repair and replacement parts) for use in the performance of such a contract if the property is "necessary and essential for the performance of the contract" and "completely consumed at the job site." In addition, the section permits the purchase tax-free of a tangible service for use in the performance of such a contract if the service is performed at the job site and if "the contract expressly requires the specific service to be provided or purchased by the person performing the contract" or "the service is integral to the performance of the contract."
- 1.16 CERTIFICATION OF FRANCHISE TAX STATUS: Respondents are advised that the successful respondent will be required to submit certification of franchise tax status as required by State Law (H.B. 175, Acts 70th Leg. R.S., 1987, Ch. 283, p. 3242). The Respondent further agrees that each subcontractor and supplier under contract will also provide a certification of franchise tax status.

- 1.17 REQUIRED NOTICES OF WORKERS' COMPENSATION INSURANCE COVERAGE: The Texas Workers' Compensation Commission has adopted a new rule, 28 TAC, sec. 110.110, relating to REPORTING REQUIREMENTS FOR BUILDING OR CONSTRUCTION PROJECTS FOR GOVERNMENTAL ENTITIES. The rule applies to all building or construction contracts advertised for bid on or after September 1, 1994. The rule implements sec. 406.096, Texas Labor Code, which requires workers' compensation insurance coverage for all persons providing services on a building or construction project for a governmental entity. The requirements of the rule are set forth in Article 6 of the Uniform General Conditions.
- 1.18 DAVIS BACON ACT: Respondents are advised that the Davis Bacon Act will be administered in accordance with the policies and procedures set forth in the U. T. System. A copy is attached to the Special Conditions. The penalty for violation of Davis Bacon rates has been increased from \$10.00 per underpaid worker per day or portion thereof to \$60.00.
- 1.19 DELINQUENCY IN PAYING CHILD SUPPORT: Under Section 231.006, Family Code, the vendor or applicant certifies that the individual or business entity named in this contract, bid, or application is not ineligible to receive the specified grant, loan, or payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.

SECTION 2 – EXECUTIVE SUMMARY

2.1 HISTORICAL BACKGROUND:

<https://www.utpb.edu/about/history>

2.2 MISSION STATEMENT:

As a regional, comprehensive institution, The University of Texas Permian Basin serves a diverse community of students from the region, the state and beyond. Through excellence in student-centered teaching, learning, research and public service, the University cultivates engaged citizens and impacts lives while advancing technology and the public interests of West Texas.

2.3 PROJECT DESCRIPTION AND SCOPE

The proposed Project consists of the concurrent renovation to the following two existing UTPB facilities located at two separate UTPB Campuses in Odessa and Midland: the Center for Energy and Economic Diversification (or CEED Building) on the Midland Campus, and the J. Conrad Dunagan Library & Lecture Center on the Odessa Campus.

At the CEED Building, approximately 16,600 net square feet in the existing facility will receive a general selective renovation to classroom, commons, lab, and support spaces, along with the installation of new building-wide life safety systems. As part of a broader effort to foster business development and incubator activity, the existing Small Business Development Center (SBDC) Office Suite will be relocated to a more prominent existing office suite near the south main entrance of the building, while a mixture of existing lab and classroom spaces and the former SBDC suite shall all be converted into a scalable blend of docking shared workspace, small office, and executive office co-working spaces to be utilized for business incubator development. Nearby, existing multipurpose work bays situated at the northern end of the CEED Building will be converted into two (2) broader lab spaces – one to house the Advanced Manufacturing Center (AMC), and the other to house the Texas Water & Energy Institute

12/03/2021

(TWEI) – in approximate 1,900 s.f. lab bays with direct access to the exterior north shared service court. The AMC – situated at the northeast end of the CEED Building - will serve as a premier additive- and subtractive-manufacturing fabrication lab with 3D printing systems, CNC and water-jet cutting systems, and scanning and advanced digital measurement systems, among others. To the west, the other large lab bay housing the TWEI will include fabrication and measurement systems and workspace to develop / test new water purification and both carbon-based and alternative energy systems for research and/or commercial application, and creation of a separate maker space plus a fluids-focused wet lab space as well. Finally, the project includes an approximate 2,200 s.f. food service venue (brand and menu TBD) to offer breakfast/lunch/dinner within the existing CEED Commons and in the existing semi-covered courtyard area outside.

In the Dunagan Library, renovation scope is to replace much of the ground floor existing periodical, journal, and reference stacks with multiple types of individual and group commons seating, dedicated seating area for lectures (i.e. ‘TED Talk’-type events), musical presentations, and symposia, group workspace intended to leverage the University’s use of the Blackstone Launchpad entrepreneurship and mentorship suite, dedicated player space for the University’s e-Sports team, and an interdisciplinary innovation suite and fabrication lab space. To synergistically support student activity within the Dunagan Library, a small food service venue – likely a Starbucks Coffee venue – has been compactly designed within the existing break room and storage space located at the western corner of the existing Library first floor.
